“The Secrets of Hypnotic Blogging: Proven Tactics for Getting Traffic and Making Sales With a Simple Blog”

Dear Hypnotic Gold Member:

I was a skeptic about blogs.

Every time I heard about them, I didn't see how they could make you any money.

Every time I looked at any blogs, I felt they were boring and self-indulgent.

So I delayed creating my own blog for years.

But then one day, while speaking on a cruise ship off the shores of Cuba, a SEO (search engine optimization) expert told me and everyone else we had to have a blog.

He explained search engines love them, and they would bring traffic to your site, which ultimately would be good for your sales.

So I put up a blog — and was amazed at how it has helped me and my business.

For this issue of Hypnotic Gold, I found a man who knows more about blogs than me.

David Ledoux is an author, speaker, and world famous trainer. He wrote the books, "How I Went From Welfare to Millionaire Without Winning The Lottery" and "The Ultimate MLM Blueprint".

He's called the #1 trainer in the world in 2000 MLM magazine. David retired in 2005 at the age of 37, and decided to become a full-time blogger. His "lifestyle blog" at www.didyousmellthat.com gets 800-1000 visitors a day -- after only 4 months of being online.

In this info-packed interview David and I talk about such things as --.

- Which platform is preferred by the search engines?
- What blog makes \$40,000 a month after a year and a half?

- What is a “lifestyle blog
- Why is his blog called “Did you smell that”?
- How can you train Google to index your blog every day?
- What is a “karmic marketing” method for getting other bloggers to send you traffic?
- What’s an easy way to write five books quickly?
- What are innovative ways to create a blog – that have nothing to do with writing?
- How did a giant cow (!) increase his traffic?
- What should you do when you are afraid to take action?

And there’s more – a lot more.

This interview was one of the best I’ve ever done in my two years of creating Hypnotic Gold audios. When you get ready to listen to it, be sure you have paper and pen handy. David gives out a lot of information, as well as links and other resources.

Go for it!
